Mr. Heron-Allen ventures to place his busing apon a level with the "aciences" of phrenology and physicgnomy, if not a little nigher. This is est an extravagant claim, and if he were satisfied with the admission of palmistry to the list of the de-sciences nobody would wish to quarre with him. He is in the habit, however, of putting forth further pretensions which are impudent because they are unsupported by either facts or reasonings. Nevertheless those who can overlook meh assumptions may find in this small publication a convenient hand-book for the latest popular game-may learn how to read character without ing inconveniently definite, and to forecast future with the skill of a veteran gypsy-
